Dear Public Service Commission,

Duke should quit investing in dirty energy like coal and actually invest in renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by cleaner, local wind and solar energy.

Sincerely,

Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Diane Clark
